

Sssara

Ratio getting his brain slurped by Sara (don't forget Sara's own pea-brain dome!)

A friendly Nightstalker that has

'befriended' Ratio and become a security officer at Stable 83. Her pea-brain may not be used much, but it allows her to think twice before eating anything and everything she sees. Her venom is a powerful aphrodisiac and numbing agent, sending whatever poor victim receives a bite into a fit of blissful, helpless orgasm. After visiting 83, she received a brain dome to show off her 'impressive' mind, though no supportive fluids were installed, letting it roll and splat around freely.
